

NEW Carrying Bags for **AirSep[®] FreeStyle[™] and FreeStyle[™] 5 Portable Oxygen Concentrators**

CAIRE is committed to producing high-quality products that reflect the needs of our customers.

These soft-sided FreeStyle Carrying Bags allow oxygen patients to easily stay mobile while providing comfort. The new robust bags have pockets to hold the AirSep External Power cartridge for longer battery life. The option of a carrying handle, shoulder strap, or backpack harness gives the patient multiple options for portability.

All new FreeStyle and FreeStyle 5 units will now ship with the improved bags.

Features and Improvements:

- 1 **NEW** robust material and construction for increased durability
- 2 Allows for attachment of backpack harness
- 3 **NEW** side pocket designed specifically to hold the AirSep POC External Power Cartridge for longer battery life
- 4 **NEW** Integrated Carry Handle gives added mobility options
- 5 **NEW** zipper top cover is more reliable and protective than the previous flap design
- 6 Allows for attachment of shoulder strap for carrying
- 7 **NEW** Additional pocket on the back of the bag to hold accessories, personal items, or additional Power Cartridges
