

TRUSTED THERAPEUTIC OXYGEN SOLUTIONS FOR PROVIDERS WORLDWIDE

High-purity oxygen
Cost-effective delivery
Time-proven reliability

CAIRE[®]
O₂ is what we do.

A COMPLETE PORTFOLIO OF STATIONARY OXYGEN CONCENTRATORS

With a broad spectrum of flow capabilities, including pediatric or high flow specialty applications, CAIRE's portfolio of stationary oxygen concentrators and accessories treats a wide range of patients. Serving millions of patients across more than 140 countries, CAIRE delivers therapeutic oxygen cost-effectively and offers the best solutions to meet today's oxygen needs for both equipment providers and patients.

CAIRE Advantages

Our stationary concentrator portfolio has exceeded customers' expectations for more than 30 years, offering reliability, durability, and performance that can enhance your fleet and reduce your total cost of ownership.

Reliability

Engineered for consistent performance to minimize service needs

Robustness

High-quality design and manufacturing withstands operation in the harshest environments

Reduced Energy Consumption

Thoughtfully designed to provide the industry's lowest power consumption, decreasing the burden on patients

Ease of Service

Experience reduced time, effort and cost in maintaining our concentrators

Partnering with CAIRE

We are committed to supporting you from the initial sale through the lifetime of the product.

Comprehensive Warranty

Our full portfolio offers an industry leading 3-year warranty

Ongoing Support and Training

Convenient and comprehensive product training by our experienced field engineers ensures your team is comfortable with the products

Telehealth Connectivity

We are the only manufacturer to offer wireless connectivity to our stationary concentrator, providing the ability to remote troubleshoot and improve operational efficiency

Broad Portfolio in O2 Delivery

Our product lines address the full spectrum of patient needs in home and facilities

Advancing Oxygen Concentrator Technology For Three Decades

CAIRE's history of innovation and expertise in oxygen delivery technology has produced an expansive portfolio of stationary oxygen concentrators that providers all over the world have come to depend upon. As pioneers of numerous technological advancements, CAIRE equipment has reached every corner of the globe. Our equipment can be found on the front lines of the COVID-19 pandemic in regions where the oxygen supply is scarce, providing continuous therapy to newborn babies in south Africa, and in war zone medical clinics providing essential care for injured military service members and civilians. No other global oxygen equipment manufacturer offers the legacy of service and support, backed by time-proven, trusted brands.

FORLIFE

In 1987, this was one of the first 5 LPM stationary concentrators for home use. It was considered a workhorse with sheet metal cabinetry.

INTEGRA

In 2001, the first 10 LPM stationary concentrator was launched, expanding at-home care options for patients.

NEWLIFE® INTENSITY

In 2009, the NewLife Intensity 10 was introduced offering up to 10 LPM and 20 psi output, expanding the specialty medical applications that can be supported in home care.

NEWLIFE® ELITE

In 1992, the Elite was introduced as a new 5 LPM SOC and an 8 LPM version in 2003. Millions of patients were served globally by this reliable workhorse.

VISIONAIRE™

Originally introduced in 2007 as a new, lightweight SOC with a compact frame offering a smaller footprint in the home. With ongoing innovation, the most recent redesign in 2018 brought VisionAire 5 to the market with upgrades, making it a concentrator of choice with the quieter and lighter footprint. In 2022, a 3 LPM version—the VisionAire 3L—was introduced to the China market.

COMPANION 5™

In 2014, this new 5 LPM SOC was introduced, thoughtfully engineered with fewer components for ease of service. In 2018, it was updated to become the first SOC offering wireless connectivity.

Serving your patients across the continuum of CAIRE.

With innovative products that address the needs of new, highly ambulatory patients, later stage high-flow patients and everybody in between—all from one trusted source.

O₂ is what we do.

For more than 50 years, CAIRE has been designing and delivering the best technologies and services to support oxygen therapy.

CAIRE products are trusted globally by patients, providers, clinicians and the military. Let us put our experience to work for you.
