

FreeStyle® Comfort®

Innovation and support to help your business thrive

CAIRE®
O₂ is what we do.

QUALITY CARE FOR YOUR PATIENTS

- > The FreeStyle Comfort offers unparalleled smart O₂ delivery including autoSAT® –the only technology that automatically adjusts to the patient's breathing needs.
- > Optimize patient care by pairing the FreeStyle Comfort with one of CAIRE's high-quality stationary concentrators.
 - Published studies demonstrate that portable systems alone don't supply the same level of oxygenation and quality of life as the combination of stationary and portable systems.
 - Low SpO₂ (<90%) was significantly more frequent during use of the wearable concentrator alone than with the combined system.¹

IMPROVED OPERATIONAL EFFICIENCY

- > Decrease operational costs by eliminating monthly deliveries and simplifying inventory management.
- > Minimize service needs to reduce maintenance costs and your total cost of ownership.
- > Reduce patient callbacks with fewer device failures.
- > Troubleshoot alarms remotely with wireless connectivity to myCAIRE™.

HISTORY OF QUALITY AND RELIABILITY

- > More than 50 years experience in manufacturing robust and reliable oxygen therapy solutions.
- > Pioneers in innovative portable air separation technology since 2000.
- > First manufacturer to offer a 3-year warranty, including sieve beds.
- > Proven performance record - with warranty repair rate averaging less than 2%.

A PARTNER YOU CAN TRUST

- > The only complete portfolio of oxygen therapy solutions to provide the appropriate care for your patients.
- > A full suite of service solutions to efficiently deliver therapy to your patients.
- > Partnering with you for total service and sales control in your market.

1. Oxygenation With a Single Portable Pulse-Dose Oxygen-Conserving Device and Combined Stationary and Portable Oxygen Delivery Devices in Subjects With COPD. Yanez A et al. Respir Care 2015;60(3):382-387.
