SPECIFICATIONS

What's the application (how's the gas being used)?

Required nitrogen flow rate in SCFH, Nm³/hr, kg, or LPM (both average & peak)?

Installation site elevation?

Installation site maximum ambient temperature?

Installation site maximum ambient humidity?

Required nitrogen concentration if other than 99.5%?

Required nitrogen delivery pressure in psig, kPa, or barg?

What's the available power supply (volts, hertz, & phase)?

Is compressed (plant) air available?

If yes, at what pressure (psig)?

What's the current gas source/supply?

What's the current nitrogen cost (monthly/weekly)?

What's the current electric rate (\$/kWh)?

Comments/space constraints/noise limitations /special code requirements?

DID YOU KNOW?

In many cases, AirSep Nitrogen Generators offer at least a 2 year payback over traditional, delivered gas supplies... Let us offer you a free ROI analysis...
