

VPSA Oxygen System – Project Information Sheet

Date

Regional Sales Manager/AirSep Representative Name

CONTACT INFORMATION

Company/Organization Name

Address

City/Town

State/Province

Zip/Postal Code

Country

Contact Name(s) and Title(s)

Telephone Number

Email Address

SPECIFICATIONS

What is the application (how is the gas being used)?

Installation site elevation (feet/meters)?

Design temperature (°F/°C)?

Design Relative Humidity?

Maximum temperature (°F/°C)?

Plant size volume (SCFH/Nm³/STPD/MTPD)

Purity (%)

Is the process sensitive to purity changes? Yes No

Product pressure at VPSA fence line (barg/psig)

Schedule required? Yes No

On Site Date

Are there peak flow requirements? Yes No

If yes, please describe.

SPECIFICATIONS

Is a high pressure receiver required? Yes No

Specify the voltages available (low/medium)

Frequency

Singe phase voltage (ie. 240 V)

3 phase low voltage (ie. 480 V)

3 phase medium voltage (ie. 4.0 kV)

Is treated cooling water available? Yes No

Is clean, dry instrument air available? Yes No

Special noise requirements?

What special codes are required?

UL
PED

CSA
PD5500

CE
GOST

ASME
AS1210

CRN
Other

Other special requirements

Please attach a drawing of the site location for the VPSA.

Standard Scope of Supply:

Customer supply: Site location, foundations, electrical, VPSA building, motor starters, drains, piping from VPSA boundary, installation of equipment.

DID YOU KNOW?

In many cases, AirSep Oxygen Generators offer at least a 2 year payback over traditional, delivered gas supplies... Let us offer you a free ROI analysis...
